DOMESTIC/MULTIFAMILY WELL RECORD AND PUMP INFORMATION DATA

INFORMATION SUPPLIED BY WELL OR PUMP INSTALLATION CONTRACTOR		DNR VARIANCE NUMBER	CASING DEPTH NUMBER
OWNER NAME	TELEPHONE NUMBER (OPTIONAL)	Applicable only if casing depth or variance were obtained from DNR.	
OWNER ADDRESS (STREET NUMBER AND ADDRESS - NO PO BOX)	CITY	STATE	ZIP
ADDRESS OF WELL (IF DIFFERENT THAN ABOVE)	CITY	STATE	ZIP

SEE BACK OF FORM FOR WELL CLASSIFICATIONS AND NUMBER OF CONNECTIONS DATA

PROPOSED USE OF WELL

- ☐ WATER SUPPLY TO A PRIVATE RESIDENCE OR UP TO 3 PRIVATE RESIDENCES (DOMESTIC WELL)
☐ WATER SUPPLY TO 4 PRIVATE RESIDENCES OR UP TO 14 PRIVATE RESIDENCES AT A NON-COMMERCIAL FACILITY (MULTIFAMILY WELL)
☐ WATER SUPPLY TO A CHURCH WITH A CONGREGATION LESS THAN 25 PEOPLE (DOMESTIC WELL-CHURCH)

WATER USE INFORMATION VERIFIED BY OWNER SIGNATURE

ALL WELLS MUST PRODUCE LESS THAN 70 GPM TO THE SURFACE, SERVE LESS THAN 25 PEOPLE AND HAVE LESS THAN 15 CONNECTIONS - otherwise use high yield/public well record

TYPES OF WELLS

Domestic Well. A private water supply well that is constructed to meet minimum standards and is equipped with a pump that does not have the capacity to produce more than seventy (70) gallons of water per minute and services three (3) or less service connections.

A private domestic water supply well that produces less than seventy (70) gallons of water per minute regardless of the use is a domestic well. Wells that serve 25 people or more are public wells.

Multiple Family (Domestic) Well. A private water supply well constructed for the purpose of serving more than three (3) dwellings, but having less than (15) service connections and serving less than twenty-five (25) individuals daily at least sixty (60) days out of the year.

Grade A Dairy (Domestic) Well. Water supply well installed to service and supply Grade A dairy operations and is constructed to domestic well standards.

A private domestic water supply well that produces less than seventy (70) gallons of water per minute regardless of the use is a domestic well. Wells that serve 25 or more people at least 60 days of the year are public wells. Therefore, a church requires a public well if the congregation is 25 or more people and the church holds Sunday services (52 days) and has one additional meeting or more per month.

A multifamily domestic well MAY have up to 14 connections ONLY if the population served by those connections is less than 25. Therefore, assuming Missouri's average residence has 3 people, **MOST MULTIFAMILY WELLS CAN HAVE NO MORE THAN 8 CONNECTIONS.**

A WELL WITH MORE THAN 8 CONNECTIONS WILL BE CONSIDERED TO BE A PUBLIC WELL UNLESS SITE SPECIFIC POPULATION DATA IS PRESENTED.

A WELL AT ANY COMMERCIAL FACILITY WILL BE CONSIDERED TO BE A PUBLIC WELL UNLESS SITE SPECIFIC WATER USE DATA IS PRESENTED.

Owner signature is required for a well to be certified.
